OUR MISSION

OUR BASIC VALUES

OUR PASSIONS

WHY? OUR BASIC PURPOSE;

Our purpose is to manufacture high-quality innovative products, relying on our accumulation of knowledge and the support of our expert staff. We strive to bring comfortable living to your home. We work intensely to protect your spaces and loved ones from the external elements and constantly create new technology to bring product improvements to you, the consumer. As the fabrication, installation and maintenance of our systems are quite easy, our products meet your requirements at the utmost level and aim to ensure maximum customer satisfaction.

ENTREPRENEURSHIP

We are open to the world and all opinions. We seek and seize the opportunities. We create an environment of trust for the delegation of powers and successfully manage all the processes. We embrace our work as if it was our own. We respect the decisions of all employees, encourage them to take responsibility and then recognize them.

ECOLOGY

Our purpose is to assist all our customers towards energy efficient building construction. For this reason, all our products provide high insulation, have long lives and require minimum maintenance. In order to minimize damage to the environment, our manufacturing processes leave minimum ecologic traces on nature, use minimum energy and have a recyclable structure.

DESIGN

Our purpose is to help you to beautify your spaces further and to reflect your own style in your architecture with our various designs. Our products possess a time-independent design that will meet your expectations with their wide color options, natural texture and unique surface quality.

OUR EMPLOYEES AND CUSTOMERS

We create an open, frank and honest working environment with all our employees and customers and create long-term business partnerships by maintaining satisfaction of all parties at the highest level. We attach importance to quality, safety, environment and people while possessing a team spirit.

HONESTY

We always speak the plain truth and act openly & frankly during the entire communication process. We perform direct & positive feedback during our relations with our partners. We adhere to team spirit during our works with our employees and business partners. We wholeheartedly disclose mistakes as we take corrective and preventive measures and defend the truths with all facts. The things we think and say do not differ from each other. This is our uniqueness.

HIGH PERFORMANCE

Our performance is measured regularly by our employees, customers, the society and shareholders. We exert efforts for continuous improvements during all our business phases, relying on our passion for reaching perfection and we successfully continue our path without deviation from our values and vision. We do what we say and share what we do. This is our concept

of responsibility and discipline. Our priorities while targeting high performance are Humans, Environment, Quality, Service and Revenue (H, E, Q, S, R). This is a requirement for a corporation having real continuity. During each phase of our business, from manufacturing to aftersales, we work towards increased performance every day.

OUR CULTURE

As a result of the corporate culture created, all employees and business partners are proud of working together. They work and act in accordance with the principles of honesty, high performance and entrepreneurship. We strive to manufacture long-life, environmentally friendly, high insulation, quality, durable

and recyclable products. Leadership in the Sector. Our company is one of the leading companies in our sector and we are among the top three companies in terms of market share. This success is based on quality and high performance in services as well as customer relations on mutual trust.

A STRONG FINANCIAL STRUCTURE

Our company has a sustainable and strong financial structure. We convert all our activities into financial targets and successfully reach our targets.

BENEFITS & SAVINGS

High Sound Insulation

In our busy lives, the hustle and bustle of every day living leaves us craving a little peace and quiet when we want it. Protection from noise is an important characteristic of a modern window, ensuring a comfortable life, both at home and in the office.

WEATHER RESISTANCE

Deceuninck's ongoing development of material technology gives you a long lasting quality product. A longer useful life means peace of mind and a great looking window that continues to improve the value of your biggest asset, your home. Extreme temperatures and severe weather exposure has no effect on doors and windows, continually performing perfectly in all conditions.

Deceuninck
*window and
door systems*
provide
advantage

MAINTENANCE FREE

Deceuninck windows and door systems do not require regular re-painting and expensive maintenance. They will not rot, warp nor corrode, even in tropical and salty coastal climates. Maintenance is simply a quick and easy clean and does not involve any further costs.

deceuninck

Thermal efficiency insulation

At Deceuninck, we've got you covered in all climates. From the hottest summers to the iciest winters, Deceuninck windows and doors help you to enjoy a perfectly comfortable atmosphere in your home. Our patented design keeps you insulated from the outside temperatures, providing you the best available thermal performance possible today.

Material & Structural Performance

You are only as good as your track record. The longevity and superior quality of this material has been conclusively proved for over 40 years. Deceuninck's material compound performs and exceeds worldwide standards for strength, durability, heat-stability, colour-retention, and termite-resistance.

FIRE SAFETY

Fire tests have shown that Deceuninck materials are naturally flame retardant throughout their product life. They will not cause, support or enhance the development of accidental fire. Unlike timber windows, the Deceuninck profiles do not support combustion and are in fact self-extinguishing.

TERMITE RESISTANCE

In many climates, timber windows and doors are often destroyed by termites, whereas Deceuninck windows and doors systems are

fully resistant to these pests, thanks to our scientifically developed compound technology.

MAXIMUM WATER TIGHTNESS

Deceuninck windows and doors systems have been successfully used in swimming pool facilities, marine and ocean environments without any detriment to its surface-finish or performance. Weather-tightness and its resistance to driving rain is one of the main assets of Deceuninck windows and doors.

MAXIMUM WIND RESISTANCE

Due to our high - quality material properties and gasket technology, Deceuninck windows and doors are ideal for installation in seaside locations and areas with extreme wind exposure. Salty air, strong wind and extreme weathering has no effect on performance.

User
friendly
and
modern

WINDOWS

Deceuninck Tilt & Turn, Casement & Awning windows are a modern engineering marvel. Proof that even the most technical aspects of design can yield beautiful results.

Windows are the face of your house; their design reflects your personality and deliver your style to the outside world. Not only do they brighten your day and allow in light, they cater to your well being by protecting you from undesirable weather and undesirable intruders. User friendliness should never be compromised so our innovative hardware technology provides your family the key to modern living.

Deceuninck windows offer simplicity and delivers perfect harmony with both the architecture and the decoration of your house. Its warm and soft lines hint at the origins of a classical and modern style.

Protection and security

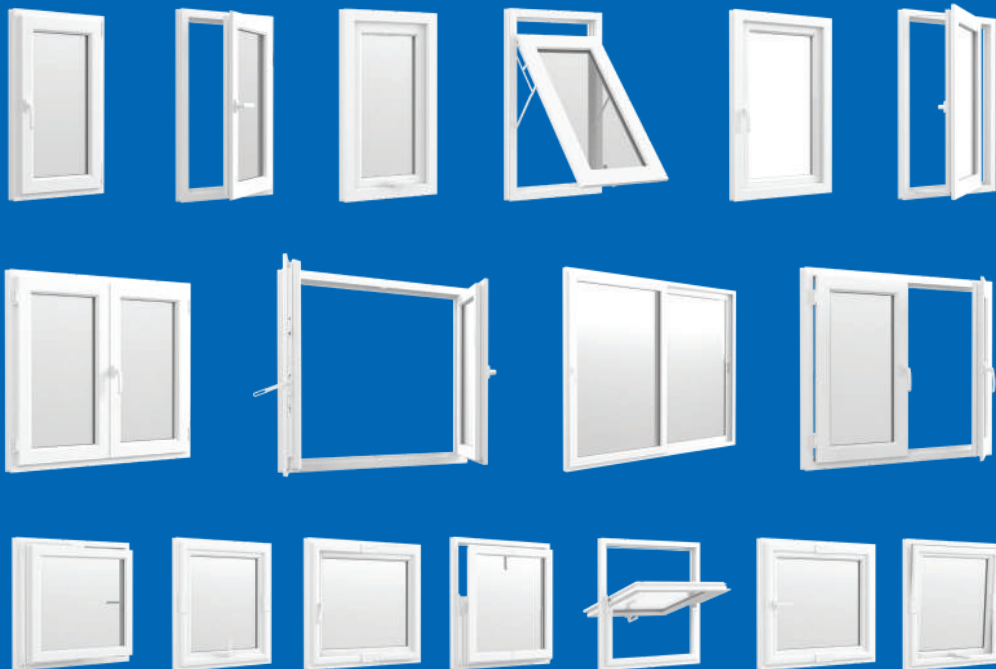

Your family is your world and protecting them is an instinctive part of our nature. The need for protection and security is part of our lives from a young age to adulthood. Protecting our material possessions is also important and

feeling safe and secure in our homes is as simple as choosing the right doors and windows. Deceuninck's high-security hardware and excellent frame strength gives you that peace of mind.

Window Types

Its tactile features achieve the aesthetic balance not only with its image, but also with the sense of strength it provides when you touch it. The design of Deceuninck windows has been distilled from continual product excellence. Our designers and engineers have made geometrical calculations of the frame, creating wonders of technology and success

by increasing frame strength and visible light at the same time. Harnessing the advantages of symmetric profile, Deceuninck windows provide the same visible aesthetics both from the inside and the outside of your house. Open or closed; Deceuninck windows will become part of your personal style.

A woman with long dark hair, wearing a white long-sleeved top and a pink skirt, is seen from behind, looking out of a large window. She is holding the handle of the window frame. The view outside shows a bright, sunny day with greenery and a white railing.

Perfect
design,
easy to use

Deceuninck manifests a superior level performance in sound and isolation with the New Legend Sliding System. Aesthetic design and ease-of-use for the users are the most prominent features of the Legend Sliding System, which provides high-level protection against cold weather during winter and hot weather during summer. You have many reasons to prefer the Legend Sliding System. The Legend Sliding System, which offers maximum benefit to spaces with its high

performance, strong isolation and ease-of-use, has a wing structure of 76 mm with 5 chambers. Glasses up to 52 mm thickness can be used in the Legend Sliding System, which claims to possess a much better air isolation compared to other sliding systems. The series offers alternative decoration possibilities with different color options and it establishes a balance between energy efficiency and comfortable living.

Growing With The Changing Desires, Demands and Requirements.

Deceuninck Lift & Slide System expands interior spaces and easily opens them to the outside world. It quickly integrates your interior space with its terrace, balcony or garden in an elegant and practical way, leaving a spectacular living and entertainment area.

Deceuninck Lift & Slide System makes your spaces weather-proof, protecting you against the elements while forming a transparent wall with comfort and spaciousness. Providing elegance and an abundance of perceived space, its high-tech operating system enables you to move unusually wide doors easily, as if floating on air.

Complete
freedom of
movement

Deceuninck Sliding System

You can choose the number, dimension and function of each section based on your specific requirements. These systems are available as two, three or four parts or in a combination of fixed and movable parts, in white or other decorative colors.

Deceuninck Lift & Slide can be applied with several glass thicknesses. The system is highly-durable to hot or cold weather elements, rain, moisture and provides the best solutions for architectural projects requiring wide openings.

BI-FOLD

Seamlessly connecting outdoor and indoor spaces

These elegant, concertina doors add a real “wow” factor to any home or premises, and seamlessly connect our outdoor and indoor spaces. Once folded back, they create a large opening for easy access. Particularly suited for new - build projects, these designer folding doors are becoming increasingly popular as property developers seek to differentiate their homes. Home owners too are increasingly demanding more sophisticated products. Deceuninck has carefully designed its bi-fold door system to offer smooth, simple functionality with a bottom or top rail concertina mechanism. The versatility of the Deceuninck bi-fold door means that you can use it to create a glass wall up to an impressive 6 meters wide. As you would expect from the world leader in door systems.

The new
generation

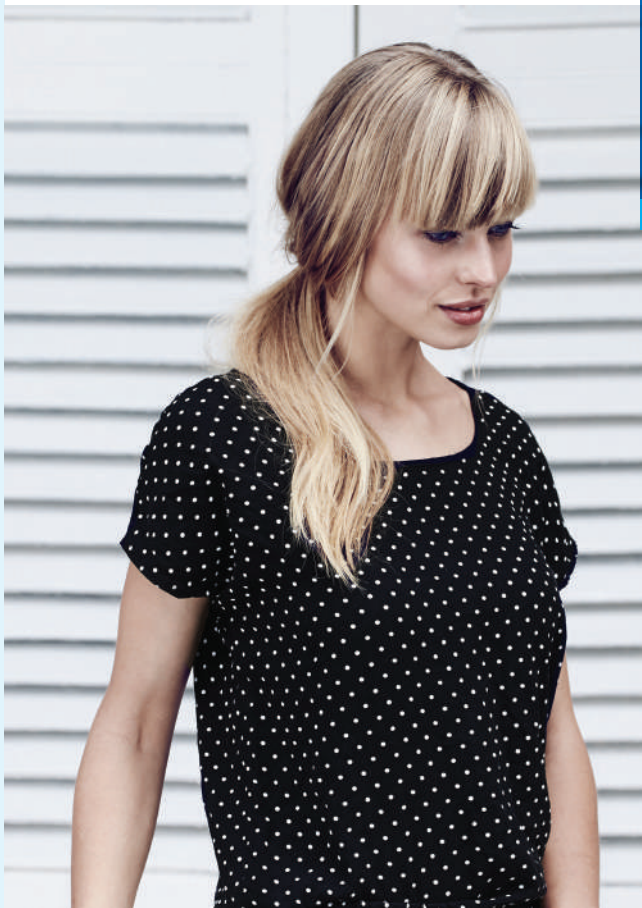

Bi-fold Types

SHUTTER

The Deceuninck Roller Shutters

Deceuninck roller shutters are made from the highest quality profiles according to European quality standards! They are designed to look perfectly matched to your style. Durable, eco-friendly and weatherproof Deceuninck roller shutters are resistant to the harshest climates, do not require any special maintenance, have excellent heat and sound insulation to make a home warm and comfortable.

Combination of an *elegant* design

Deceuninck roller shutters enhance the appearance of your home while adding immediate value to your property. They also provide a powerful psychological crime barrier and are recommended by many insurers. Your family benefits from additional home insulation that saves your cooling and heating costs. Your house is kept cozy and comfortable all year long. Roller shutters protect your home's interior from sun glare, heat and UV damage. Deceuninck roller shutters also act as acoustic insulator, reducing noise levels significantly. Complete privacy when you need it and unobstructed views when you want it!

ROLLER SHUTTER

Windows brighten our lives and capture the view, but what if we could make them disappear when we wanted. Using Deceuninck Roller Shutters improves your home security and comfort.

PROTECTION

Keep your family safe and gain valuable energy savings. Roller shutters add a strong exterior layer to your home, not only improving your home's insulation; they help protect you from glare, noise and the danger of broken glass. When the storm rages outside, roller shutters give your windows additional protection against flying debris.

Maximum compatibility with all window systems

Best of all, Deceuninck Louvre Shutters are designed to suit all window types. Our leading design and high-quality components will assure you of an attractive and functional louvre shutter for many years to come.

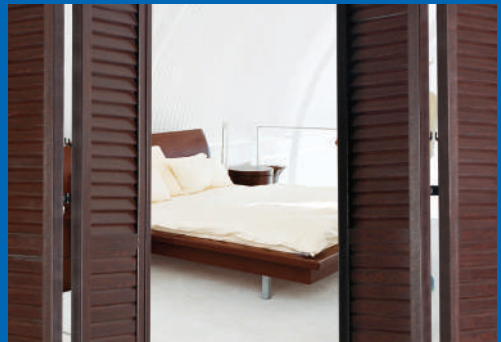

LOUVRE SHUTTER

Louvre shutters have been a long standing and functional element of modern building design. Deceuninck have reclaimed this important architectural feature, refining its aesthetics and performance for today's environment.

DESIGN

Louvre shutters protect your home. Harsh sun and extreme weather can fade your interior, damage your home and leave your family vulnerable. Deceuninck louvre shutters protect you from the elements and deliver a strong sense of design and style. For the best result in your home, Deceuninck louvre shutters can be installed to the frame of your windows or on the wall if required. To best suit your design, louvre shutters are available as a single sash, double sash and the bi-folding system for larger openings.

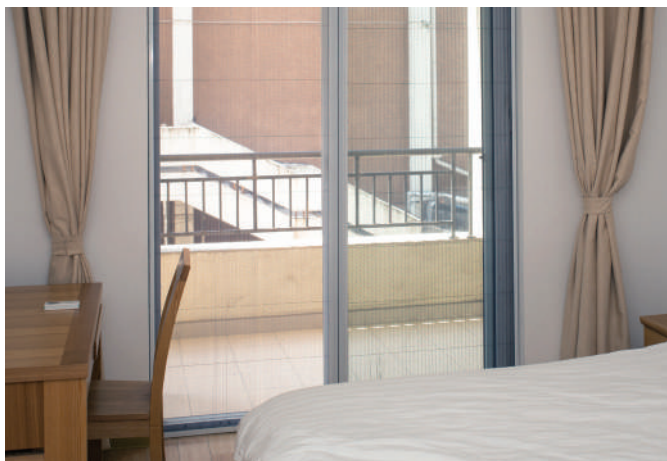

FLYSCREEN

Sliding Flyscreen System

Deceuninck has proved its difference with the genuine design of Sliding Flyscreen System which is one of the most significant necessities in the sector. Deceuninck Sliding Flyscreen System is composed of the sash profile, the transom profiles and two different types of rail profile. The big rail is used for double rail frame and the small rail is used for single rail frame. Sliding Flyscreen System absolutely prevents the entry of flies and other insects with double brush application in compliance with the production details. It is the only Sliding Flyscreen System with the possibility to be laminated completely. It may be laminated with the same color as the opening; therefore, it provides a visual integrity.

Window Types

High Performance on High Buildings

The construction volume of high-rise buildings in the world is increasing. Using PVC windows when glazing high-rise buildings decrease the costs. PVC windows have lower cost and have better thermotechnical characteristics compared to aluminium windows.

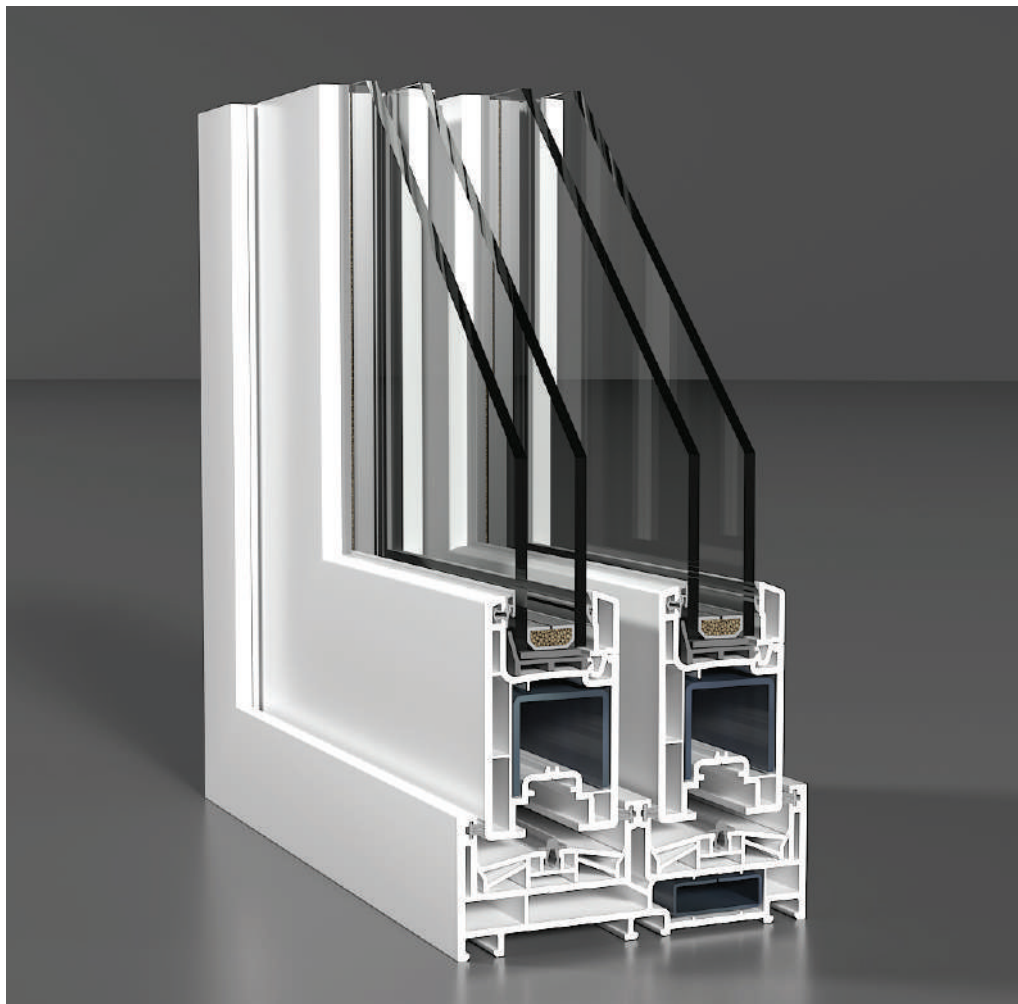

Trendy look with slim design

Architects and designers are always looking for ways to create the slimmest framed window possible.

Deceuninck's slim design windows maintain an aesthetic and functional framing profile. Even full height windows can be created out of these slim frames.

Deceuninck manufactures 100% recyclable and environmentally-conscious, lead-free products. Making significant investments for a more livable world, Deceuninck steps forward in the sector with its products considering environment and human health.
